Data Protection – Information Security Policy

Objectives

It is the objective of Mamo Building Services to manage an effective Information Security Management System in accordance with our set company objectives. The aim of this system is to protect the information of our clients, our employees and other business critical information.

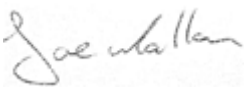

We commit to: -

- Develop and implement measurable policies and processes while considering the protection of the organisation's information assets from all threats both internal and external.
- Foster customer confidence by acting in accordance with security standards and check systems.
- Continually improve the Information Security Management System through the establishment and regular review of measurable security objectives at relevant functions and levels of the organisation.
- Comply with business and legal regulatory requirements and contractual security obligations.
- Provide systems for protection against unauthorised access.
- Ensure confidentiality of data.
- Create mechanisms to identify and review the risk and impact of breaches in protected information.

This policy, drawn up by the Directors, is the direct concern of the Company's Senior Management, who are accountable to the Board of Directors for its overall implementation.

The Company is committed to ensuring that the necessary resources are devoted to meeting our objective. This includes the provision of information, training and instruction as needs arise.

This policy statement will be communicated to all persons working for and on behalf of MAMO Building Services Ltd and any other relevant "interested parties".
